## Section B

Each of Questions $\mathbf{0 7}$ to $\mathbf{3 1}$ is followed by four responses, A, B, C and D.

For each question select the best response.

Only one answer per question is allowed.
For each answer completely fill in the circle alongside the appropriate answer.
CORRECT METHOD WRONG METHODS $\triangle \infty$
If you want to change your answer you must cross out your original answer as shown.

If you wish to return to an answer previously crossed out, ring the answer you now wish to select as shown.

You may do your working in the blank space around each question but this will not be marked. Do not use additional sheets for this working.
