# AS Level Geography

H081/01 Landscape and place

**Tuesday 15 May 2018 – Afternoon**

**Time allowed: 1 hour 45 minutes**

**You must have:**

- the Resource Booklet (inserted)
- the OCR 12-page Answer Booklet (OCR12 sent with general stationery)

**You may use:**

- a ruler (cm/mm)
- a scientific or graphical calculator

## INSTRUCTIONS

- The Resource Booklet will be found inside this document.
- Use black ink. You may use an HB pencil for graphs and diagrams.
- Section A: Choose **one** option and answer all parts of the question in the option.
- Section B: Answer **all** questions.
- Section C: Answer **all** questions.
- Write your answers in the Answer Booklet. The question number(s) must be clearly shown.
- Do **not** write in the barcodes.

## INFORMATION

- The total mark for this paper is **82**.
- The marks for each question are shown in brackets [ ].
- Quality of extended responses will be assessed in questions marked with an asterisk (\*).
- This document consists of **4** pages.

## Section A – Landscape Systems

Choose **one** option and answer **all** parts of the question in the option.

### Option A – Coastal Landscapes

- 1 (a) Study **Fig. 1** which shows a coastal landscape in Norfolk, England.
- (i) Using evidence from **Fig. 1**, describe **one** distinctive coastal landform. [3]
  - (ii) Suggest **one** way in which geology has influenced the shape of the landform identified in (a)(i). [4]
- (b) Explain the formation of spits. [8]
- (c)\* 'Human activity is the main cause of landscape change within coastal systems.' How far do you agree with this view? [14]

OR

### Option B – Glaciated Landscapes

- 2 (a) Study **Fig. 2** which shows a glaciated landscape in Scotland.
- (i) Using evidence from **Fig. 2**, describe **one** distinctive glacial landform. [3]
  - (ii) Suggest **one** way in which geology has influenced the shape of the landform identified in (a)(i). [4]
- (b) Explain the formation of terminal moraines. [8]
- (c)\* 'Human activity is the main cause of landscape change within periglacial systems.' How far do you agree with this view? [14]

OR

### Option C – Dryland Landscapes

- 3 (a) Study **Fig. 3** which shows a dryland landscape in California, USA.
- (i) Using evidence from **Fig. 3**, describe **one** distinctive dryland landform. [3]
  - (ii) Suggest **one** way in which geology has influenced the shape of the landform identified in (a)(i). [4]
- (b) Explain the formation of alluvial fans. [8]
- (c)\* 'Human activity is the main cause of landscape change within dryland systems.' How far do you agree with this view? [14]

## Section B – Changing Spaces; Making Places

Answer **all** questions.

- 4 (a)** Explain **two** ways in which religion influences peoples' perception of places. **[4]**
- (b)** Study **Fig. 4a**, poverty indicators for Barking and Dagenham and Kingston-upon-Thames, Greater London, 2015. Barking and Dagenham and Kingston-upon-Thames are two of the administrative districts (boroughs) of the Greater London urban area.
- (i)** Using statistical evidence from **Fig. 4a**, state **one** contrast in poverty between Barking and Dagenham and Kingston-upon-Thames. **[1]**
- (ii)** With reference to **Fig. 4a**, suggest **two** reasons for social inequality between Barking and Dagenham and Kingston-upon-Thames. **[4]**
- (c)** Study **Fig. 4b**, a plan for a mixed-use community site at Capital Park in Victoria, British Columbia, Canada.
- Using evidence from **Fig. 4b**, explain **two** ways in which architects and planners attempt to create meaningful and authentic places. **[6]**
- (d)\*** 'Rebranding is always a successful strategy in the place-making process.' To what extent do you agree with this statement? **[14]**

**Section C – Fieldwork**

Answer **all** questions.

- 5 (a)** Study **Fig. 5**, crowd-sourced data of geo-located photographs taken by tourists (in red) and locals (in blue) in Barcelona, Spain.
- (i) Suggest and justify a geographical question which could be investigated using the data collected in **Fig. 5**. [4]
- (ii) State **two** benefits of using crowd-sourced data for the investigation suggested in **(a)(i)**. [2]
- (iii) Explain **two** ethical implications you would need to consider when using crowd-sourced data for the investigation suggested in **(a)(i)**. [6]
- (b)** With reference to a fieldwork investigation you have carried out, evaluate the sampling strategy used. [12]
